National City

The National City CommUNITY Banking program benefits your organization.

The CommUNITY Banking program is specifically designed to help fund the important work of local nonprofit organizations.

How CommUNITY Banking works.

CommUNITY Banking provides you and your group members with an opportunity to earn funds on a continuing basis, while giving us the opportunity to work together. When your organization signs up to become a CommUNITY Banking program member:

- National City provides you with materials that explain the program to your group members.
- When a member opens a new account* with National City and declares his or her affiliation

with your organization, we will make a one-time contribution by account type to your organization. Please see the accompanying chart for examples.

- In addition, National City will contribute to your organization an amount equal to a percentage of the total interest paid annually on every account designated for your group. Please note: The matching percentage contribution does not affect the amount of interest earned by the accountholder.
- If group members already bank with National City, they can simply visit their local branch or call 1-800-925-9259 to link their accounts so that your organization can benefit from their participation as well.
